

IMPORTANT INFORMATION FOR HCPP PHYSICIANS

ACCOUNTABLE CARE AGREEMENT EFFECTIVE JANUARY 1, 2013!

After a lengthy negotiation, HCPP's Finance committee and Operating committee approved the Florida Blue Accountable Care Program agreement. This agreement features a shared savings to HCPP if quality criteria are met by HCPP Physicians. Presently, there are about 4,100 commercially insured Florida Blue patients that access HCPP providers.

Included with this UPDATE is a copy of the joint HCPP/Florida Blue press release.

More information will be forthcoming.

HOLY CROSS EMPLOYEE GROUP INSURANCE CHANGES JANUARY 1, 2013!

Approximately 4,000 employees will have lower out-of-pocket costs if they receive care from an HCPP participating provider. With the addition of the other commercially insured patients, approximately 8,000 patients will be accessing the HCPP clinically integrated network.

As always, the HCPP provider directory can be viewed at www.holycrossphysicianpartners.com

MEDVENTIVE UP AND RUNNING!

We are presently testing the configuration of our disease registry system and plan to deploy full access to HCPP providers throughout the first quarter of 2013.

HCPP IS GROWING!

Over 250 providers now participate in our clinically integrated network. Physicians throughout Broward and Palm Beach counties are seeing the value of affiliating with our organization as the payment for and delivery of health care services shifts from volume to value.

Happy Holidays from HCPP!

We look forward to a prosperous new year!
